

Spaulding Electrocardiograph – The Fresh ECG Solution

Imagine unlimited ECGs in the palm of your hand. A simple, modern approach to acquiring, analyzing and storing ECGs is the mission of Spaulding Medical. Our innovative 12-lead ECG system integrates with your existing technology to make care and treatment decisions easier and faster.

There are four building blocks to the Spaulding Solution: device, apps, webECG and reader services. Working seamlessly together, they provide an ECG experience unlike any other.

Amazing Device

- Small** – 3.5” wide, 1” tall, easy to store, easier to move
- Simple** – One button to operate makes training easy
- Sturdy** – Tested to withstand accidental drops and splashes
- Cleared** – FDA, CE clearance
- Rechargeable** – Easily charged lithium battery with standard wall plug, no special electrical upgrades required
- Advanced** – Bluetooth standard on every unit
- Friendly** – Works with your existing technology

Applications Included Free

- Compatible** – Device pairs with Apple and Android mobile devices or Windows PCs
- Wireless** – ECGs stream wirelessly via secure Bluetooth technology to your app
- Easy** – User interface is built on each platform for intuitive ECG acquisition and report
- Adaptable** – Take 10 second ECGs or multi-minute rhythms; enter demographic information on the fly
- Instant** – Computer algorithm interpretations appear immediately upon upload
- Smart** – If internet is not available, app will upload ECG when connection is established

Revolutionary WebECG

Comprehensive – Store ECGs in the cloud to access anytime, anywhere

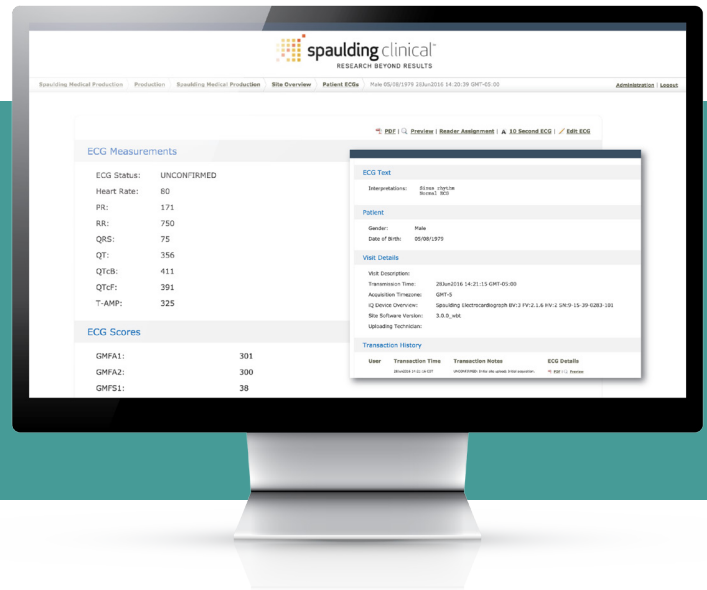

Customizable – Set up user access at three different levels; includes physician reader licenses

Trackable – Simple entry of ECG orders online, search by date or patient demographic

Visibility – Serial Comparison: compare previous and current ECG reports side-by-side to aid in diagnoses

Secure – Data is encrypted in transit and at rest, HIPAA Compliant

Digital Workflow – Set up custom processes for the way you work

Spaulding Reader Services = Peace of Mind

Confidence – On-call U.S. board certified cardiologists to analyze your ECGs

Results – ECG interpretations available with standard 24-48 turnaround time

Emergency Reads – When an ECG over-read is needed quickly, cardiologists can provide STAT interpretations

Communication – Results saved in confirmed report on WebECG and communicated to user contact

Multifunctional – Save confirmed PDF of report in your EMR, print a copy to any printer for fast handoffs

Scalable – Increase ECG orders with ease
